

CASE STUDY

Enabling a Large Law Enforcement Agency to Accurately Track Their Equipment and Inventory

ABOUT CHANDLER POLICE DEPARTMENT

Chandler, Arizona is a world-class destination with low crime rates, exceptional amenities and a proud history. Chandler Police Department is comprised of over 530 employees with a mission statement to provide a safe community where people can live, work and thrive.

THE CHALLENGE

Chandler Police Department was in search of an inventory management system that was created specifically for law enforcement where they could accurately track employee and officer equipment that would also provide automatic notifications and reports created specifically for their organization.

THE SOLUTION

After searching for an inventory management software, Chandler Police Department quickly realized that there aren't many systems that are created specifically for law enforcement. When they found collectiveQuartermaster, they dove in to learn more and found that the system provided everything they needed while also being easy to use and straight forward. Chandler Police Department has been able to accurately track their inventory without items falling through the cracks, track who has what equipment, when it's due back for retirement, maintenance or replacement, and set automatic email notifications and reports in order to keep their employees safe without missing anything.
